SUMMARY

Computer Science & Engineering undergraduate (VTU, 2026) with hands-on experience building full-stack web applications and machine learning systems. Skilled in Python, React.js, Django, and MySQL. Demonstrated ability to design, develop, and deploy end-to-end software solutions that solve real-world problems.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML, CSS, SQL
Frameworks & Libraries: React.js, Django, Flask, TensorFlow.js
Databases: MySQL
Concepts: Python Full-Stack Development, HTML and CSS, Machine Learning
Tools: Git, VS Code

PROJECTS

- Digital Marketplace for Farmers | Python, Django, React.js, MySQL** Nov 2024
- Designed and developed a full-stack e-commerce platform enabling farmers to list products, set prices, and manage orders directly — eliminating intermediaries.
 - Integrated real-time market price updates and secure payment gateway to ensure transparent, reliable transactions.
 - Architected the system for scalability and accessibility, improving market reach and financial independence for smallholder farmers.
- Crop Price Prediction | Python, Flask, Scikit-learn, Random Forest** Apr 2024
- Built a machine learning model using Random Forest to forecast crop prices with up to 80% accuracy.
 - Applied advanced feature engineering techniques — percentile-based outlier reduction and lag variables — to improve model robustness and capture temporal dependencies.
 - Deployed the predictive model via a Flask web application, providing a real-time, user-friendly interface for farmers, traders, and policymakers.
- Yoga Pose Detection Using AI | TensorFlow.js, MoveNet, Deep Learning** Oct 2025
- Developed a real-time, browser-based yoga pose detection system using MoveNet for landmark detection and a custom-trained deep learning classifier.
 - Implemented entirely in TensorFlow.js, enabling on-device inference in the browser with no installations or specialized hardware required.
 - Designed an intuitive user interface to provide instant pose feedback, improving accessibility for guided yoga practice.

EDUCATION

PES Institute of Technology <i>Bachelor of Engineering, Computer Science & Engineering (VTU)</i>	Shivamogga, Karnataka 2022 – 2026
Sir MV PU College <i>Pre-University (PUC)</i>	Davanagere Score: 67%
National Residential School <i>Secondary School (SSLC)</i>	Konandur Score: 83%

CERTIFICATIONS

Introduction to Python – Infosys Springboard (2024)	Introduction to Ethical Hacking – Udemy (2025)
Web Page Designing using WordPress – PESITM (2023)	Understanding Incubation & Entrepreneurship – NPTEL (75%)

LANGUAGES

English, Kannada, Hindi, Tamil
