Career Objective

To obtain an entry-level Software Engineer role where I can apply my skills in Python, JavaScript, SQL, HTML, CSS, React, and web development to build reliable and scalable software solutions. I am eager to contribute to innovative projects, strengthen my problem-solving skills, and continuously learn new technologies while working in a collaborative, growth-oriented environment.

Technical Skills

Languages: Python, HTML, CSS, JavaScript, SQL

Frameworks & Libraries: React.js, Django, Flask, TensorFlow.js

Databases: MySQL

Concepts: Data Structures and Algorithms, Object-Oriented Programming, REST APIs, Machine Learning, Python Full-Stack Development

Tools: Git, GitHub, VS Code, Vercel

Internships

Frontend Development Intern — Cognifyz Technologies

Jul 2026 – Aug 2026

Developed responsive web applications using HTML, CSS, JavaScript, Bootstrap, Git, and GitHub.

Python Full Stack Developer Trainee — Dhee Coding Lab

Feb 2026 – Mar 2026

Completed practical training in Python, Django, SQL, and modern web development technologies.

Projects

Crop Price Prediction — Python, Flask, Scikit-learn

Apr 2024

- Built a Random Forest machine learning model to predict crop prices with up to 80% accuracy.
- Applied feature engineering techniques, including outlier reduction and lag variables, to improve model performance.
- Deployed the model as a Flask web application, providing real-time crop price predictions through a user-friendly interface.

Yoga Pose Detection Using AI — TensorFlow.js, MoveNet, Deep Learning

Oct 2025

- Developed a real-time browser-based yoga pose detection system using MoveNet and a custom-trained deep learning classifier.
- Implemented on-device pose detection with TensorFlow.js, eliminating the need for installations or specialized hardware.
- Designed an intuitive interface that provides real-time pose feedback to enhance guided yoga practice.

Education

PES Institute of Technology & Management

Shivamogga

Bachelor of Engineering, Computer Science & Design Engineering (VTU)

2022–2026

Sir MV PU College

Davanagere

Pre-University (PUC) Score: 67%

2020–2022

National Residential School

Konandur

Secondary School (SSLC) Score: 83%

2020

Certifications

Introduction to Python (Infosys Springboard, 2024) — Introduction to Ethical Hacking (Udemy, 2025) — Web Page Designing using WordPress (PESITM, 2023) — Understanding Incubation & Entrepreneurship (NPTEL, 75%)

Languages

English, Kannada, Hindi, Tamil
